# New Zealand Journal of Geology and Geophysics

Volume 22 1979

Department of Scientific and Industrial Research, Wellington

*Editor: Rob Lynch*
*Assistant Editor: Anne C. Wright*

*N.Z. Journal of Geology and Geophysics*
*Volume 1 (February 1958)—*

supersedes in part:

*N.Z. Journal of Science and Technology: Section B—General*
*Volume 20 (July 1938)—38 (December 1957)*

and:

*N.Z. Journal of Science and Technology*
*Volume 1 (January 1918)—19 (May 1938)*

ISSN 0028–8306

# CONTENTS OF VOLUME 22

## Number 1

| | | Page |
|---|---|---|
| Geophysical study of the Hauraki Depression, North Island, New Zealand | **M. P. Hochstein and I. M. Nixon** | 1 |
| Petrology and provenance of Pleistocene deposits in the south Parengarenga–Te Kao district, northern New Zealand | **B. D. Ricketts** | 21 |
| Mineragraphy and origin of copper-bearing sulphides at Waitahuna River, eastern Otago | **J. H. Lowery** | 29 |
| Precious metal bearing veins of the Maratoto–Wentworth area, Hauraki Goldfield, New Zealand | **J. V. Main** | 41 |
| Cenozoic stratigraphy of Small Nggela Island, Solomon Islands—early Miocene deposition in a forearc basin followed by Pliocene patch reef deposition | **G. Neef** | 53 |
| Paleozoic interarc basin in eastern Australia and a modern New Zealand analogue | **R. A. F. Cas and J. G. Jones** | 71 |
| Bathyal Nukumaruan Mollusca from Oaro, southern Marlborough, New Zealand | **A. G. Beu** | 87 |
| The succession of *Belemnopsis* in the Heterian stratotype, Kawhia Harbour, New Zealand | **A. B. Challinor** | 105 |
| *Ikamauius*, a new genus of fossil sawshark (Order Selachii: Family Pristiophoridae) from the Cenozoic of New Zealand | **I. W. Keyes** | 125 |
| Late Holocene uplift at Te Araroa, East Cape, North Island, New Zealand | **R. A. Garrick** | 131 |
| Late Holocene geology and archaeology of Parapara Spit, Golden Bay, New Zealand | **B. G. McFadgen and A. J. Challis** | 141 |

**Notes**

| | | |
|---|---|---|
| Occurrence of *Atomodesma* limestone near Dansey Pass, North Otago | **I. J. Pringle** | 147 |
| *Glycymeris marwicki*, a new name for *Glycymeris reevei* Marwick, 1931 (Pteriomorphia: Bivalvia) | **Akihiko Matsukuma and J. A. Grant-Mackie** | 151 |
| **Corrigenda** | | 153 |
| **New Zealand Theses in Earth Sciences** | | 153 |

FEBRUARY 1979

## Number 2

Page

Phreatic eruptions of Ruapehu: April 1975 — **I. A. Nairn, C. P. Wood, and C. A. Y. Hewson** 155

*Appendix*—Ruapehu deformation surveys and the 1975 eruption — **P. M. Otway** 170

Magmatic eruption of White Island volcano, New Zealand, December 1976–April 1977 — **R. H. Clark, J. W. Cole, I. A. Nairn, and C. P. Wood** 175

Torlesse geology of Kakahu, South Canterbury — **K. D. Hitching** 191

Paleomagnetism of the Upper Cretaceous Mount Somers Volcanics, Canterbury, New Zealand — **P. J. Oliver, T. C. Mumme, G. W. Grindley, and P. Vella** 199

Sedimentary structures in Quaternary ironsands at Waikato North Head, New Zealand — **A. B. Christie** 213

Geology, geochemistry, and mineralisation of the Endeavour Inlet antimony-gold prospect, Marlborough Sounds, New Zealand — **Franco Pirajno** 227

Natural bridges in basalt lavas, Northland, New Zealand — **R. F. Heming** 239

Seismic wave velocities in the uppermost mantle beneath New Zealand — **A. J. Haines** 245

Significance of storm surges on the New Zealand coast — **R. A. Heath** 259

Recognition and distribution of Heterian *Belemnopsis* in south-west Auckland — **A. B. Challinor** 267

Some radiocarbon dates for moa remains from natural deposits — **Beverley McCulloch and Michael M. Trotter** 277

**Notes**

Some aspects of the ice topography of Trough Lake, southern Victoria Land, Antarctica — **Graeme L. Lyon** 281

Age and structure of Torlesse rocks (Canterbury Suite), Otira Gorge, Westland, New Zealand — **R. H. Findlay** 285

Radiocarbon ages from dune sands near Aotea and Kawhia Harbours, North Island, New Zealand — **C. F. Pain** 291

**Letters to the Editor**

A Dilemma in Structural Mapping — **Maxwell Gage** 293

**New Zealand Theses in Earth Sciences** 294

**Corrigenda** 294

APRIL 1979

## Number 3

Page

A sandstone diapir cutting the Amuri Limestone, North Canterbury, New Zealand
**D. W. Lewis, David Smale, and Gerrit J. van der Lingen** 295

Geology, geochemistry, and mineralisation of a spilite-keratophyre association in Cretaceous flysch, East Cape area, New Zealand **Franco Pirajno** 307

Trace element distribution in the schist surrounding a quartz-scheelite lode, Glenorchy, New Zealand **Colin J. Paterson and Peter C. Rankin** 329

Geology and mineralisation of the former Broken Hills gold mine, Hikuai, Coromandel, New Zealand **C. R. Moore** 339

Scallop Hill Formation, Brown Peninsula, McMurdo Sound, Antarctica
**Alan J. Eggers** 353

Rotomahana–Waimangu eruption, 1886: base surge and basalt magma **I. A. Nairn** 363

Microanalysis of planation surfaces in the Port Nicholson Basin (Wellington City), and relationship of tectonic features **Richard W. Heine** 379

Submarine slides and submarine canyons on the continental slope off Canterbury, New Zealand **Richard H. Herzer** 391

**Notes**

A Pleistocene molluscan fauna beneath the Maui-A gas platform, offshore Taranaki
**L. Goldberg and R. M. Carter** 407

**Book Review**

"Introduction to Marine Micropaleontology" edited by Bilai U. Haq and Anne Boersma **N. de B. Hornibrook** 411

**Letters to the Editor**

Deep earthquakes that were precursors of the eruption of Ruapehu, New Zealand, on 22 June 1969 **Claude Blot** 413

**New Zealand Theses in Earth Sciences** 415

**Corrigenda** 415

JUNE 1979

## Number 4

Page

Stratigraphy, structure, and inferred environments of deposition of the Early Cretaceous sequence, eastern Wairarapa, New Zealand — **P. R. Moore and Ian Speden** 417

Low-angle thrusts in Cenozoic rocks in Canterbury, New Zealand — **J. D. Bradshaw and J. Newman** 435

Melanges and associated rocks, Livingstone Mountains, Southland, New Zealand — **D. Craw** 443

Potassium-argon dating of Mt Somers Volcanics, South Island, New Zealand. Limitations in dating Mesozoic volcanic rocks — **C. J. D. Adams and P. J. Oliver** 455

Seasonal variations in volume and morphology of some western Taranaki beaches — **E. R. Matthews** 465

A micro-earthquake survey of the Rangitikei and Manawatu Basins — **E. G. C. Smith** 473

Regional and residual gravity fields, central North Island, New Zealand — **T. A. Stern** 479

Ice core and ice cement effects on soil development, eastern Wright Valley, Antarctica — **J. G. Bockheim** 487

Magnesian halotrichite from White Island — **A. D. Cody and T. R. Grammer** 495

Some porate pollen from the upper Tertiary of New Zealand — **D. C. Mildenhall and Y. M. Crosbie** 499

Variations in *Bolivinita quadrilatera* (Foraminiferida, upper Neogene, New Zealand) — **G. H. Scott** 509

Early Jurassic (Ururoan Stage) *Pseudaucella* from Canterbury Suite rocks at Kaiwara, North Canterbury — **Ian G. Speden** 521

**Notes**

Low-angle reverse faulting near Gore and Pebbly Hills, Southland — **Trevor Hatherton** 525

**Letters to the Editor**

Radiocarbon Dates

Comment — **W. A. Pullar** 527

Reply — **R. C. McGill** 527

Reply — **T. L. Grant-Taylor** 528

Reply — **K. M. Goh** 529

**Book Reviews**

"Sea-Level Changes in Northwest England during the Flandrian Stage" by M. J. Tooley — **J. C. Schofield** 533

AUGUST 1979

## Number 5

Page

Rappahannock Group: Late Cenozoic sedimentation and tectonics contemporaneous with Alpine Fault movement **Huntly N. C. Cutten** 535

Stratigraphy and sedimentology of the Caples terrane of the Thomson Mountains, northern Southland, New Zealand **I. M. Turnbull** 555

Mineralogy of the Puramahoi kaolin deposits, Takaka, North-west Nelson **R. Soong and M. R. Johnston** 575

Holocene pollen diagrams from Pauatahanui Inlet, Porirua, New Zealand **D. C. Mildenhall** 585

Late Cretaceous foraminifera from Kahuitara Tuff, Pitt Island, New Zealand **C. P. Strong** 593

Late Haumurian (Maastrichtian) microfossils from Chatham Islands, New Zealand **C. P. Strong and A. R. Edwards** 613

**Notes**

The Upper Triassic Bivalve *Oretia* Marwick 1953 **J. B. Waterhouse** 621

Vuagnatite in New Zealand **David Craw, Charles A. Landis, and Yosuke Kawachi**

OCTOBER 1979

## Number 6

Page

Structure, petrology, and genesis of Cenozoic volcanism, Taupo Volcanic Zone, New Zealand—a review **J. W. Cole** 631

Morphology and volcanism of the Wadati–Benioff zone in the Tonga–Kermadec system of recent subduction **V. Hanus and J. Vanek** 659

Geophysical models along Ashburton River, Canterbury, New Zealand **R. A. E. Atkins and S. R. Hicks** 673

Age and correlation of volcanic rocks of Campbell Island and metamorphic basement of the Campbell Plateau, South-west Pacific **C. J. Adams, P. A. Morris, and J. M. Beggs** 679

Geology of the Urewera Greywacke in Waioeka Gorge, Raukumara Peninsula, New Zealand **D. A. Feary** 693
(Fig. 2 is inserted between pp. 694–5)

Petrography of the Caples terrane of the Thomson Mountains, northern Southland, New Zealand **I. M. Turnbull** 709

Occurrence and origin of an analcimolite from the Permian Wellar Coal Measures of Antarctica **Margaret A. Bradshaw** 729

Records of two Paleogene turtles and notes on other Tertiary reptilian remains from New Zealand **R. Ewan Fordyce** 737

A new species of *Permophorus* Chavan (Bivalvia) from the early Triassic of New Zealand **J. B. Waterhouse** 743

**Notes**

The petrology of Poor Knights Islands: a fossil geothermal field **Antoni Wodzicki and F. E. Bowen** 751

Structures in loess revealed by X-ray radiography, Banks Peninsula, New Zealand **G. L. Scott and D. W. Lewis** 755

Rhyolitic Late Pleistocene tephras to the south and west of Lake Taupo, New Zealand **Russell Howorth and Wayne W. Topping** 759

Lake Taupo—probable source of Taupo Pumice Formation **P. C. Froggatt** 763

**Letters to the Editor**

Significance of storm surges on the New Zealand coast
Comment **R. M. Kirk** 765
Reply **R. A. Heath** 766

**New Zealand Theses in Earth Sciences** 767

**Index to Volume 22 (1979)** 769

**DECEMBER 1979**

P. D. HASSELBERG, GOVERNMENT PRINTER, WELLINGTON, NEW ZEALAND—1980
